T. McCanunidge, Esq. - Dear Sir. - We have one of Samuel Rue & Co's patent injectors in use in our establishment for the last six nonths, and we take pleasure in saying that it gives entire satisfaction, and would recommend it to all parties. It is simple in its construction and its working is as easily understood as the common force pump, it never gets out of order and is dways ready to pour water into the boiler when required.
